BOPPO Technologies Pvt.Ltd.

SKILLS

HTML5 CSS3 JavaScript React.js Next.JS

Git Bootstrap Tailwind CSS Express.js

MongoDB React Native Material-Tailwind UI

PROJECTS

RangePlus Website & Dashboard (E-Commerce)
(11/2022 - 07/2023)

- Developed a scalable e-commerce platform featuring a user-friendly interface for browsing and purchasing products. The admin dashboard allows seamless management of products, orders, users, and sales analytics. Integrated secure payment gateways and third-party APIs to enhance user experience and streamline business operations. - https://stage.rangeplus.com

Kingsvilla E-Commerce Application

- (Personal Project)- A full-fledged e-commerce platform developed using the **MERN stack** (MongoDB, Express, React, Node.js). The application includes comprehensive product listings, a fully functional shopping cart, user authentication, and secure payment integration. Features an intuitive admin panel for managing products, categories, orders, and users, providing a seamless shopping experience. - https://kigsvillah.vercel.app

Boppo Technologies Main Website

- Designed and developed the user interface using **Next.js** and **Tailwind CSS** for a modern, responsive, and visually appealing website. The site delivers a seamless user experience across devices, optimizing performance and scalability while adhering to best practices in web design and development.-https://www.boppotechnologies.com

Dream & Discover Blog Website

- (Personal Project)- Developed a feature-rich blog platform using **Next.js** , **Material UI** , and **Tailwind CSS** for a clean, responsive design. Integrated secure user authentication with the **MERN stack** (MongoDB, Express, React, Node.js) to allow users to register, log in, and manage their profiles. The platform offers a seamless user experience with a modern and scalable interface.- https://blog-mern-nu-one.vercel.app

Friday Release Website

- Developed the user interface using **HTML** and **CSS** for a responsive and visually appealing website. Focused on clean design principles, ensuring an intuitive and seamless user experience across all devices, with attention to detail in layout, typography, and visual hierarchy.- https://www.fridayrelease.com

Boppo Go E-Commerce Website

- Built a dynamic and scalable e-commerce platform using **Next.js** . The website features optimized product listings, a responsive design, and a seamless user experience across devices. Focused on performance, speed, and modern web development practices to ensure a smooth shopping experience for users.
